PPO Choice Saver Select Plan

What Is A Health Savings Account?

A HSA is a tax-favored savings account that can be used to pay for current medical expenses, including deductible expenses, or the funds can accumulate to pay for future medical expenses or even retirement needs. It may be established on or after the effective date of your qualifying health insurance.

Establish and Fund Your Health Savings Account

After your qualifying High Deductible Health Plan is in place, the next step is to open up the HSA. You will need to work with a trustee, which can be a bank or another financial institution that has been approved by the IRS. At NHP, we make this step simple and easy! We have partnered with First Horizon MSaver Resources to administer the HSA plan, and First Horizon Bank serves as the IRS-approved trustee. Simply complete and return the First Horizon MSaver enrollment form. A minimum deposit of \$100 is required to open the account.

First Horizon MSaver will mail you a welcome packet that includes your debit card and/or checks for withdrawals and other information about your new account.

What Can This Mean For You?

A more affordable health plan.

Flexibility. You can use the HSA to pay towards the annual deductible or other qualified medical expenses that may be covered by your health plan.

Annual Contributions are 100% tax deductible up to the allowed amount. Your contributions remain in your account until you choose to make a withdrawal.

HSAs are portable. If your employment situation changes or you switch insurance companies, the HSA goes with you. New contributions can be made as long as you enroll in a qualified High Deductible Health Plan.

Nationwide Health Plans' new PPO Choice Saver Select is a HSA qualified plan that is simple and easy to understand. Once the deductible is met, the plan pays 100% in-network coverage for covered benefits! Plus, we make it easy for you to open a Health Savings Account, providing you with seamless HSA enrollment through First Horizon MSaver!
